

## **CHAPTER 8—Dr. Chas E. Myers' Weekly Videos**

### **Index: Recent Snuffy Video...10may13**

**Access To Videos:** Google "Prostate Forum Myers". Click "Ask Dr. Myers Blog". First time: Register for Free Videos to your Inbox. Note the button at bottom left for "Older Entries" when you reach the bottom of the current roster; repeat for each roster.

### **Disappearing Bone Mets?**

Posted May 10, 2013

The future is exciting with new drugs coming available, and in particular the combination of drugs working against multiple receptors. A patient with significant metastatic disease was treated with Zytega in combination, and he is completely healed.

### **Active Surveillance Vs RT**

Posted May 2, 2013

The PIVOT Trial studied Prostatectomy vs Watchful Waiting. No similar study for radiation. Small Gleason 6's shifting to Active Surveillance has reduced treatment income for both surgery and radiation.

Radiation (RT) described as the gift that never stops giving. RT is a sunburn to nearby tissues. RT causes cancer. Risks to bladder, colon and bladder increase after 10 years. Net, RT is not a risk-free option for SG6.
