

CHAPTER 8—Dr. Chas E. Myers' Weekly Videos

Index: Recent Snuffy Video

Access To Videos: Google "Prostate Forum Myers". Click "Ask Dr. Myers Blog". First time: Register for Free Videos to your Inbox. Note the button at bottom left for "Older Entries" when you reach the bottom of the current roster; repeat for each roster.

Avodart + Active Surveillance

Posted November 5, 2013

Active Surveillance requires monthly labs of testosterone and DHT. Color flow Doppler is excellent for imaging tumor volume and vascularity. Endorectal MRI also valuable for imaging. PSA is not a reliable measure. PSA doubling time is bogus. After 6 months gland shrinks and PCa recedes (but doesn't disappear). % Free PSA is good tool.
